

But Most Of All

Chorus:

I love the way You touch me

I love the way You hold me

I love the way You move me

I love the way You care for me

I love the way You bless me

I love when You caress me

I love to hear You whisper I love you

But most of all

I love the way You love me

Verse:

I've so many thoughts about You

I just can't live without You

You are the One True Lover of my soul

Your heart beats within mine, Lord,

though all I seek to find, Lord,

will pass away like embers in a fire

But most of all

You are my heart's desire

Hook:

I won't erase the mem'ries that I have with You.

I won't undo the good things that You do.

My only hope is that I'll have more time with You

to learn the lessons of life in You.
