

My Never-Ending Friend (Version 1)

Melody & lyrics by Roger Funk, II

If I ever have the chance to rule the world
I know what I would do.
I'd spend each minute spreading love and happiness the
whole world through.
I'd change the sorrows and the pain, and bring wars to an end
forevermore.
But most of all, My Never-Ending Friend,
we'd fall in love again!

And if I ever have the chance to dream again
I know one dream would be
that you would never be unkind, and in your heart you'd find
a place for me.
And if my dreams could all come true, I'd spend them all with you,
my love.
And most of all, My Never-Ending Friend,
I wish we'd love again! (Love again!)

So, please don't ever let me down –
please say you'll stay around my love!
For most of all My Never-Ending Friend,
I wish we'd love again!

My closest friend, forever 'til the end:
Why can't we love a-gain?

(written when I was 16 – about 1978)
